## **Possibilities and Challenges of Child Right Research in Developing Countries**

Presentation by Dr. Jacobijn Olthoff and Dr. Azza Abdelmoneium  
Master's programme in Children's Rights, University of Amsterdam

Children's right gained a lot of recognition and attention in the past 20 years in academic and non-academic fields. Dr. Jacobijn Olthoff and Dr. Azza Abdelmoneium will explain research from a child right perspective and elaborate on its implications and the overlaps with research approaches in other academic fields in science. Taking Sudan as a case study, the discussion will focus on the challenges of research in developing countries.

The Anthropology of Children Working Group (based at VU University, Amsterdam) brings together academics and practitioners engaged in research and work with children. Through monthly seminars, the Working Group promotes child-oriented theory, methodology, and research ethics. Besides, it serves as a platform for (interdisciplinary) academic research and it enhances dialogue with practitioners through joint research projects, publications and conferences.

Convenor / Dr Sandra J.T.M. Evers, Department of Social and Cultural Anthropology, VU University Amsterdam.
